## CAREER OBJECTIVE

Aspiring data analyst and web developer with hands-on experience in building interactive dashboards and web applications. Eager to apply analytical thinking and full-stack skills to drive data-driven decision-making and create impactful digital solutions.

## EDUCATION

| Degree/Certificate | Institute/Board                                      | CGPA/Percentage | Year         |
|--------------------|--|-----------------|--------------|
| B.Tech.            | Jaypee University of Engineering and Technology,Guna | 8.0 (Current)   | 2022-Present |
| Senior Secondary   | CBSE Board   | 72%             | 2022         |
| Secondary          | CBSE Board   | 81%             | 2020         |

## EXPERIENCE

- Yoshops** May 2025 - current  
*Data Analytics Intern* Remote
  - Developed interactive dashboards using Power BI to visualize business KPIs and uncover actionable insights from large datasets.
  - Cleaned and transformed raw data using Excel, SQL, and Power Query, improving data accuracy and analysis efficiency.
- CodeSoft** June 2024 - July 2024  
*Python Programming Intern* Remotel
  - Designed and implemented three Python-based projects featuring GUI development, demonstrating proficiency in building interactive and user-friendly applications
  - Strengthened core competencies in Python programming, with a focus on writing efficient, modular code and applying it to real-world problem-solving scenarios.

## PROJECTS

- Crop Recommendation System** Github  
*An AI-powered system for suggesting optimal crops based on soil and environmental conditions*
  - Developed the frontend of the web interface using HTML, CSS, and JavaScript.
  - "Implemented a machine learning model using Logistic Regression to accurately predict the most suitable crop based on environmental and soil parameters.
- Weather Forecaste App** Github  
*This provides real-time weather updates and a 5-day forecast for any city.*
  - Developed responsive and dynamic web pages using HTML, CSS, JavaScript, and React, ensuring seamless user experience across devices.
  - Integrated a real-time Weather API to fetch and display live weather data, enhancing the application's interactivity and user engagement

## SKILLS

- Programming:** Python, C/C++, HTML,CSS,JavaScript,React,Nextjs,MySQL
- Tools:** Git/Github,Framer,Ms Excel,Power Bi
- Course Work:** Data Structures Algorithm,Object Oriented Programming,Data Base Management System,Operating System,Computer Network

## CERTIFICATIONS

- Power Bi For Beginners:** Certificate of Completion [Certificate](#)
- Web Development Bootcamp:** Certificate of completion the complete 2024 Web Development [Certificate](#)

## POSITIONS OF RESPONSIBILITY

- Joint Secretary**,Hospitality, JUET YOUTH CLUB(JYC) Aug. 2024 - Present
